## Importance & Outcome of the Seminar:

The seminar was very fruitful and enriched everyone immensely. We got theoretically enriched about the theme of the seminar, and also gained a deeper understanding of the core content of the theme of **Impact of Philosophy on Education: Some Reflections..** We learnt about the practice of knowledge in Indian and Western philosophies from the perspective of educational values. If we deeply analyse the theme of the seminar we will see that every aspect of human life is guided by this theme as both Philosophy and Education play a pivotal role in our lives.. The selection of the relevant theme and the consequent outcome made the seminar, in a single word, highly successful.

Prof. Pooja Agarwal (H.O.D of Philosophy)
